Lithuania positioned itself as market leader (+ 46 %, € 85,8 mn.), followed by Poland (+ 16 %, € 33,6 mn.), Estonia (+ 16 %, € 18 mn.) and Latvia (- 41 %, € 85,8 mn.). Dresses, trousers, blouses, sweaters, twin sets and cardigans such as outdoor jackets and coats belonged to the best-selling categories of EU-Eastern suppliers of womenswear to Russia. Dresses reached a growth of 11 percent (€ 43 mn.), followed by trousers (+ 44 %, € 24,2 mn.)

Intimate Apparel

Shipments of day-and-night-underwear such as swimwear and bathrobes for men and boys from EU-Eastern member states to Russia attained a growth of 41 percent accounting for a total of € 9,2 mn., with Lithuania in the lead (+ 65 %, € 4,6 mn.). Exports of intimate apparel for female consumption in Russia decreased at 19 percent to a shipment value of € 104 million. Main reason for the negative result is Latvia from where lingerie supplies to Russia depreciated at 70 percent to € 16 million. A further reason were sharp declining export sales of panty hose, down by 62 percent to a shipment value of € 25 million. Despite a slump in export sales of brassieres from Latvia to Russia at 36 percent (€ 6,3 mn.), the rest of EU-Eastern brassiere-supplies to Russia reached a growth of 16 percent to € 31,8 million.
