U. K. Technical Textiles Directory
UK Trade & Investment is the Government Department that helps UK-based companies succeed in the global economy. We also help overseas companies bring their high-quality investment to the UK's dynamic economy – acknowledged as Europe's best place from which to succeed in global business.

UK Trade & Investment offers expertise and contacts through its extensive network of specialists in the UK, and in British embassies and other diplomatic offices around the world. We provide companies with the tools they require to be competitive on the world stage.

For further information please visit www.ukti.gov.uk or telephone +44 (0)20 7215 8000.

Technical approach:
Technical textiles are textiles which fulfill technical requirements in order to perform better (e.g. in order to meet technical standards). The performance attributes of a technical textile outweigh any aesthetic requirements.

Market approach:
Technical textiles offer solutions for the multi-faceted technical demands of our society (e.g. environmental issues, personal security, general security, health and well being).

* source: Euratex 'Working group for technical textiles'

The success of technical textiles is in most part due to the creativity, innovation and versatility in woven, knitted and non woven fabrics, with applications spanning an enormous range of end uses including protective clothing, medical and insulation materials for buildings.

The technical textiles sector is one of the most innovative branches of industry in the world, ranking as one of the five high-tech sectors with the greatest potential for development. The global market for technical textiles today is worth an estimated 97 billion Euros, where Asia leads the world in terms of textile consumption with 8.5 million tons followed by the USA and Europe with 5.8 and 4.8 million tons respectively.
At present the key areas for technical textiles are automotive 28%, industry 18%, building 10%, protection 10% with the other 34% share divided between medical, sport, packaging, agriculture, performance clothing and home.

Important too for the huge economic potential offered by functional technical textiles is their ability to combine with each other to create ever new technical innovations: it is worth mentioning also that many of these innovations are dependant on the high quality (and often high value) of raw materials used.

The industry places much emphasis on its diversification in research to discover, promote and implement innovation as the driving force of growth.

The United Kingdom is seen as a world leader in the field of technical textiles.

A key area for technical textiles that adds value in many ways, both obvious and hidden. Technologies include waterproof, breathable, flame retardant, anti-static, high visibility, rot-proof, anti-bacterial, antifungal, antimicrobial, noise reduction, chemical rot, low-friction, UV protection - the list goes on. Additional comfort is also an important element. Bonded textiles can join different textiles with special properties and compositions together or simply attach one product to another.
Coated, Laminated or Bonded Textiles

**British Millerain Co. Ltd**

Old Broadshaw Farm  
Broadshaw Lane  
Rochdale  
OL16 4NR  
Tel: +44 (0)1706 649242  
Email: inquiries@britishmillerain.com  
www.britishmillerain.com  

Classic waxed fabrics on cotton base or laminates. Fabric bases used include nylon ripstop, cotton, canvas, cotton/Lycra, nylon, polyester, flax etc. Suppliers of high performance waterproof workwear, military, medical, commercial canvasses, luggage, marine, sports. Lamination properties include breathable, waterproof, rot-proof, proofed and glazed.

**J B Broadley**

Reedsholme Works  
Burnley Road  
Rawtenstall  
Lancashire  
BB4 8LN  
Tel: +44 (0)1706 603661  
Email: sales@jbbroadley.co.uk  
www.jbbroadley.co.uk  

One of the world’s leading textile coating companies. Uses specially developed high-tech processing techniques to coat a wide range of base fabrics with bespoke polymer-based coating materials.

**Coating Applications Group**

Reedsholme Works  
Burnley Road  
Rawtenstall  
Lancashire  
BB4 8LN  
Tel: +44 (0)1706 603661  
Email: sales@coatingapplications.co.uk  
www.coatingapplications.co.uk  

Coated and laminated textiles in high performance PV and PVC. Technologies include waterproof, breathable, flame retardant, anti-static, high visibility. End uses include performance, protective and workwear apparel, weatherproof sportswear, tents and inflatable structures. Brand names include Excat, Electron and Vente.

**Dartex Coatings Ltd**

Acton Close  
Long Eaton  
Nottingham  
NG10 1FZ  
Tel: +44 (0)115 983 7676  
Email: info@dartexcoatings.com  
www.dartexcoatings.com  

Transfer coating, transfer laminating including precast hot melt adhesive webs. Primary areas of supply include the health care and outdoor markets. Finishes include protective wear and high breathability, fire retardant, coated fabrics for hot and cold-formed injection moulded seating.

**Dunlop Greengate**
Manufacturers of thermoplastic coated fabrics - i.e. polyurethane coated textile, polypropylene coated textile, polyethylene coated textile for the safety, industrial, and civil engineering markets. Range of thermoplastic coated fabrics include: Polyether Polyurethane coatings, Polyester Polyurethane Coatings, Polypropylene polyethylene coatings, EVA and Hytrel® coatings.

**Ferguson Polycom Ltd**
Producers of high quality natural rubber coated fabrics with the enviable reputation as a world-renowned producer of custom rubber compounds and speciality elastomer coated fabrics.

**Fibermark Red Bridge International Ltd**
Manufacturer of acrylic coated textiles and papers used primarily as decorative coverings in the bookbinding, stationery, packaging, pattern book and security markets.

**FlexiWarm PLC**
Anglo/German co-operation which produces specialized insulating coatings for the construction industry and conductive foils. Products are used within a vast range of industries, including sports and performance wear, military protective clothing and construction.

The technical textiles sector has been a growth market for several years and includes many niche segments related to individual applications. Every day sees the constant emergence of new groups of products thanks to tailor-made fibres, new processing technologies and ultra-modern textile machinery. Because of the increasing importance of technical textiles, there is now a huge need for technology, quality and precision in the production of fibres, yarns, knits, wovens and non wovens as a first stage in the textile manufacturing process. The development of new high-tech fibres and the need to process them with care require all sorts of things from flexible restructuring of the production process to user-friendly working procedures. This places high demands of creativity and innovation on researchers, designers and indeed engineers.

**Palmhive Technical Textiles Ltd**

NTG House  
Willow Road  
Lenton  
Nottingham  
NG7 2TA

Tel: +44 (0)115 9707900  
Email: enquiries@palmhive.co.uk  
www.palmhive.co.uk

Offers a complete solution from research and development through to quality assessment thereby undertaking the entire production process. Substantial stock holding. Raschel and tricot warp knitting machines, in-house dyeing and finishing.
PIL Membranes Limited

Estuary Road
King’s Lynn
Norfolk
PE30 2HS

Tel: +44 (0)1553 622000
Email: info@pilmembranes.com
www.pilmembranes.com

Specialists in the development of membrane systems used by world-wide manufacturing companies; particularly in the production of garments, footwear and filtration products.

Polux Ltd

Elliott Street
Rochdale
Lancashire
OL12 0LH

Tel: +44 (0)1706 358466
Email: info@polux.co.uk
www.polux.co.uk

Specialists in the manufacture of high temperature products including threads, yarns and fabrics.

Regray Textiles

Unit 6
Simpson Street
Hyde
Cheshire
SK14 1BJ

Tel: +44 (0)161 368 7417
Email: sales@regray.co.uk
www.regray.com

Manufacturers of elastics, braids, cords, tapes and webbings for equestrian, upholstery and military end uses.

Resintex

Kingston Mills
Manchester Road
Hyde
Manchester
Cheshire
SK14 2BZ

Tel: +44 (0)161 367 1373
Email: sales@resintex.co.uk
www.resintex.co.uk

Manufacturers and suppliers of an extensive range of high performance fibres and fabrics for the European composites and reinforced plastics markets servicing industries including: Automotive, Aerospace, Marine, Wind Energy Generation, Sports and Recreation and many others. Products include Woven Roving Glass Cloth, Aramid Cloth, Basalt Cloth and Carbon Cloth.
Shakespeare Monofilament UK

Enterprise Way
Fleetwood
Lancashire
FY7 8RY

Tel: +44 (0)1253 858787
Email: roger.evans@jardenuk.co.uk
www.shakespearemonofilaments.com

Wide range of monofilament products with end uses as wide reaching as filtration, narrow fabrics for waistband stiffening, braided monofilaments for use in a variety of automotive, aerospace and medical applications.

Speciality Fibres and Materials Ltd

PO Box 111
101 Lockhurst Lane
Coventry
CV6 5RS

Tel: +44 (0)24 7670 8200
Email: enquiries@sfm-limited.com
www.specialityfibres.com

Manufacturers and developers of a range of fabrics for various customised applications. Fabrics may be woven or non woven and are specific to the requirements of each industrial customer.

Swisstulle UK Ltd

PO Box 9955
Nottingham
NG4 9DY

Tel: +44 (0)115 841 4370
Email: sales@tulle.co.uk
www.swisstulle.co.uk

Manufacture genuine bobbinet tulle, constructed by warp and weft yarns that interlock, the resultant fabric has high strength, durability, uniform construction and various levels of transparency. Used in fashion, military, medical, film & theatre, flexible electronics and electromagnetic shielding.

**Fabrics, Fibres & Yarns**

**Talbot Weaving (Chorley) Ltd**

**Ventile® Fabrics**

PO Box 391
Chorley
PR7 6WN

Tel: +44 (0)1257 239049
Email: info@ventile.co.uk
www.ventile.co.uk

Ventile® is made from 100% cotton, densely woven in the U.K. from the finest, long staple fibre. Ventile® is not coated or laminated yet the combination of the dense weave and the swelling properties of the fibres when wet provide excellent weatherproofing. It is an entirely natural product that offers a unique level of comfort, look and feel as well as being windproof, highly breathable, very durable and quiet. Ventile® fabrics are used in some of the world’s finest outerwear performance garments and have military, medical and workwear applications.

**Technical Absorbants Ltd**

PO Box 24
Great Coates
Grimsby
DN31 2SS

Tel: +44 (0)1472 244 053
Email: sales@techabsorbents.com
www.techabsorbents.com

Technical Absorbents Ltd (TAL) produces a Super Absorbent Fibre SAF, providing absorbency solutions for applications including non-wovens, medical, horticultural, filtration and construction.

**Technical Fibre Products**

Burnside Mills
Kendal
Cumbria
LA9 6PZ

Tel: +44 (0)1539 818200
Email: marketing@techfibres.com
www.techfibres.com

Manufacturers of nonwoven materials for various applications; offer a diverse range of mats and veils based on an extensive portfolio of fibre and binder types. Products find application in a wide variety of fields, including fire protection, surface engineering of reinforced plastics and thermal insulation.

Kirriemuir
Angus
DD8 4BL

Tel: +44 (0)1575 570201
Email: sales@jdwilkie.co.uk
www.jdwilkie.co.uk

Products include woven, non-woven, stitchbonded, coated, composites, plus comprehensive sewing and making up. End uses include filtration, composites, floorcoverings, military camouflage, thermal and protective infra-red, also tents and covers, construction and medical.
William Reed Weaving

Spring Bank Mills
Every Street
Nelson
Lancashire
BB9 7DA

Tel: +44 (0)1282 603666
Email: enquiries@wreed.co.uk
www.wreed.co.uk

Woven fabrics of medium and high tenacity, continuous filament fabrics in nylon 6.6, polyester and acetate, using yarns from 22dtex up to 1100dtex. Fabrics can be supplied loomstate or fully finished. Flame retardant Trevira, Cordura, performance Reetech, for ballistic, spinnaker, parachutes etc.

Zyex

Stonedale Road
Stonehouse
Gloucestershire
GL10 3RQ

Tel: +44 (0)1453 827979
Email: enquires@zyex.com
www.zyex.com

Specialists in the extrusion of fibres and profiles from polyketone polymers, principally Peek (polyetheretherketone). Products that resist abrasion or chemical attack whilst maintaining dimensional stability at elevated temperatures are potential uses of Zyex. Niche product markets include aerospace braids, violin strings, medical devices and advance thermoplastic composites.
The sector covers upholstery, curtains, carpets and other flooring products for contract, commercial, domestic and transportation. Stretch FR polyesters, high tenacity warp knitted aerated mesh fabrics and spacers; engineered, knitted three dimensional slip on covers and self supporting suspension nets, ultra high endurance fabrics achieving in excess of half a million Martindale abrasion cycles. Insulating and sustainability are major factors, natural fibres such as hemp or nettle are blended with wool to produce innovative fabrics with natural values. Technical fibres and yarns play a key role in this sector as do high performance finishes, as in general the 'life expectancy' of interior textiles is four years or longer.
Bonar Yarns & Fabrics

Caldrum Works
St Salvador Street
Dundee
DD3 7EU

Tel: +44 (0)1382 346106
Email: info@bonaryarns.com
www.bonaryarns.com

Synthetic and fibrillated yarns for high performance flooring and industrial textiles. Artificial grass yarns, polypropylene backing yarns for carpets which include both Axminster and Wilton types.

British Velvets Limited

Alma Mill
Wyre Street
Padiham
Burnley
BB12 8DQ

Tel: +44 (0)1282 778134
Email: sales@britishvelvets.com
http://www.britishvelvets.com

The leading weavers of velvet products for the soft furnishings, contract and upholstery markets, supplying a wide range of velvet fabrics using cotton, linen, Lyocel, open-end and ring pull yarns for a variety of finishes.

Camira Fabrics Ltd

Hopton Mills
Mirfield
West Yorkshire
WF14 8HE

Tel: +44 (0)1924 495605
E-mail: info@camirafabrics.com
www.camirafabrics.com

Uses innovative materials, finishes, treatments and technologies to make fabrics for commercial and contract interiors. Examples include technical knits and nets, sustainable bast fibre fabrics, high endurance fabrics and stretch FR fabrics. Also develop a variety of special yarns including hemp and nettle blends. Holdsworth Fabrics is the brand name for automotive, bus and train moquettes and flat weaves.

Candela Textiles Ltd

Unit 9
Marsland Street
Hazel Grove
Stockport
Cheshire
SK7 4ER

Tel: +44 (0)161 487 3289
Email: sales@candela-textiles.co.uk
www.candela-textiles.co.uk

Specialists in converting and manufacturing high quality flame retardant fabrics and products. All fabrics and products meet with the relevant British Standard Fire Specifications.
Manufacturers and worldwide suppliers of memory foam mattresses, pocket sprung mattresses, cold cure moulded foam seating and converted slabstock foam.

Market leader in the flame retardant coating of fabrics for the upholstery and household textile markets, offering two alternative methods of producing flame-retardant fabrics, i.e. impregnation or backcoating. The choice is determined by the base of the fabric and the type of finish required.

Manufacturers and finishers of high quality textiles for use within the home and interiors industries; the UK leader finishing specialists of home furnishing textiles. Blackout linings for domestic and contract end uses. Flame retardant backcoatings to meet Crib 5. Healthcare finishes.

Bags and sack in woven or warp knitted polypropylene or hessian. Mail bags, food bags, cash handling bags, also bags for agriculture, industry and building.
Producers of Vivelle Papier and Vivelle Suede, used for non-slip underside and lining applications. VIVELLE Papier has been used in the wrapping of expensive fragile items such as furniture, glass and vulnerable corrugated plastic sheeting. VIVELLE Papier and Suede are used to line the inside of books and diaries.
Protection

- Luminous textiles
- Police, ambulance, fireman, emergency services uniforms
- Thermal insulation

This area of technical textiles covers fabric end uses for the police and fire brigade, armed forces, construction workers, air and sea rescue teams. Fabric finishes are key in this sector as are particular fibre properties, both combining to offer a huge range of protection properties such as flame retardant, cut-proof, dangerous chemical proof, protection against UV rays, and thermal.

New on the market is a type of modified acrylic fibre that is not only flame, heat, UV and solvent resistant but also impervious to acid and bases. Such fibres and fabrics are not only suitable for protective garments but also areas such as plasterboard for buildings or textile linings for transport.
Protection

Aegis Engineering Ltd

Unit 5
Chesford Grange
Warrington
Cheshire
WA1 4SZ

Tel: +44 (0)1925 840048

Manufacturers of a range of systems and fabric cutters used throughout the textile industry to create high quality textile products, including clothing, automotive seating and boat sails.

Beldam Crossley Limited
P O Box 2141
Lostock Lane Industrial Estate
Lostock Lane
Bolton
Lancashire
BL6 4SB
Tel: +44 (0)1204 675700
Email: info@beldham-crossley.co.uk
www.beldam-crossley.co.uk

Beldam Crossley cord seals (sometimes known as rope seals) can offer designers and engineers the ability to increase operating efficiencies when installed to reduce hot gas leakage between components in aircraft engines and hot aero structures.
### Carr Reinforcements Ltd

**Address:** Gordon Street Mill, Worsthorne, Burnley, BB10 3NA
**Telephone:** +44 (0)1282 420924
**Email:** webenquiries@carrreinforcements.com
**Website:** www.carrreinforcements.com

Independent weavers of high performance fabrics for use in the aerospace, automotive, equestrian, motorcycle, defence, marine and industrial markets and many more composite applications. New developments have included coloured carbon fibre fabrics for strength and style, plus the VITECH® range of PVC coated Carbon and Kevlar®/Carbon fabrics used in the manufacture of protective clothing and cosmetic panels.

### Guilford Europe Ltd

**Address:** Cotes Park, Somercotes, Derbyshire, DE55 4NJ
**Telephone:** +44 (0)1773 547218
**Email:** cbrown@eu.gfd.com
**Website:** www.guilfordtextiles.com

Key product area for automotive body cloth, headliners and interior fabric with design surface interest that includes suedeing, brushing, etching, printing and embossing. Also supplies many other product areas including sportswear, interior, medical, filtration etc.

### Replin Fabrics

**Address:** March Street Mills, Pebbles, EH45 8ER
**Telephone:** +44 (0)1721 721 724
**Email:** enquires@replin-fabrics.co.uk
**Website:** www.replin-fabrics.co.uk

Manufacturer of upholstery and curtaining for the transport, rail and aviation industry. Technical fabric finishes include smoke-reducing, flame proof, low abrasion finishes. Emphasis also on yarns and fabric structure.

### Wardle Storeys PLC

**Address:** Grove Mill, Earby, Near Colne, Lancashire, BB8 6UT
**Telephone:** +44 (0)1282 842511
**Email:** sales@wardlestoreys.com
**Website:** www.wardlestoreys.com

Wardle Storeys is a long-established supplier into the global automotive industry. High performance materials are also produced for the demanding sector of ‘yellow products’ which includes seating and cab interiors in construction, agricultural and materials handling machinery.
Two-phase, Textile & Testing Machinery

- special & unique products
- textile machinery
- textile testing

Textile machinery and textile testing are major services working to develop the technical textile industry in all its areas of production and research.
Alphatek Hyperformance Coatings

A5 Cuba Industrial Estate
Bolton Road North
Ramsbottom
Lancashire
BL0 0NE

Tel: +44 (0)1706 821021
Email: sales@alphatek.co.uk
www.alphatek.co.uk

Suppliers of a range of thermally sprayed and fluoropolymer surface engineered coatings to various industries including the textile and paper industries, intended to provide wear resistance, corrosion protection and low friction release.

Asahi Glass Fluoropolymers U.K. Ltd

Hillhouse International Site
York House, Thornton Cleveleys
Blackpool
Lancashire
FY5 4QD

Tel: +44 (0)1253 861800
Email: info@fluon.co.uk
www.fluon.com

Produces special fluororesin coating agent, ASAHI GUARD® which has very low surface tension, protecting material from oils and fluids. It can be applied to all kinds of fabrics and protects upholstery, carpets, seats and linen, as well as umbrellas, leather, sportswear, uniforms and surgical gowns.

Auxetix Ltd

The Innovation Centre
Rennes Drive
Exeter
Devon
EX4 4RN

Tel: +44 (0)1625 267262
Email: info@auxetix.com
www.auxetix.com

Bespoke R&D company that invents and refines novel auxetic technologies which are then available for use on commercial terms. Research is into different materials and their properties, as well as those desired by consumers.

Baxenden Chemicals

Paragon Works
Baxenden
Accrington
Lancashire
BB5 2SL

Tel: +44 (0)1254 872278
Email: mail@baxchem.co.uk
www.baxchem.co.uk

Acknowledged as a global leader in polyurethane technology, manufacturing speciality polyurethane prepolymers, blocked isocyanates, polyurethane dispersions, hydrophilic polyurethanes, polyesters and polyvinylacetate copolymers. Uses WITCOFLEX Hydrophilic coatings for breathable (water vapour permeable) textile coating.
Industrial flatbed platform cutters, also laser cutters. Ranges include Mastercut, Genesis and Orion. Materials cut include PV, carpets, Kevlar, plastics, composites, fabrics etc. Supply to aerospace, automotive, clothing, upholstery, marine, composites, building industry etc. Cutters support and complement a wide range of software packages.

Specialists in the testing and certification of Personal Protective Equipment, Geosynthetics, Floorcoverings and other construction products. Other departments specialize in Chemical testing and the commission manufacture, dyeing and finishing of small scale spun and nonwoven fabrics.

Manufacturers of an extensive range of tufting machines and ancillaries, completed to the same high standards of precision engineering. Range includes, but is not limited to, high speed carpet tufting, tufting gauge parts, tufting design systems and level loop cut systems.

Manufacturers and suppliers of braiding machines and braiding equipment that are used in a variety of worldwide markets. These include automotive, aerospace, medical, engineering and narrow fabrics companies.
